PREFACE

Gender Equality is a global issue, and discussions on women' emancipation and her rights are at the forefront of many worldwide formal and informal campaigns. As the awareness of gender issues increases, women spontaneously take action against women's oppression and exploitation.

Gender awareness allows women to move beyond other conventional gender stereotypes and rigid gender role definitions.

The gender audit was conducted to identify ways to make college campus safer for women. The audit process involved choosing the sites to be audited, selecting the participants, orientation to the participants, preparing the checklist and the walk –about, writing down the findings and sharing the results with the principal of the college for implementation of the recommendations.
